**QUALITY LEVEL:** 3 Quality Assurance Through Attributes (GPO PUB 310.1, effective May 1979 (Rev. 8-02)) applies.

**DESCRIPTION:**

Covers 1 and 4 print full coverage with type/line and illustration matter in 4-color process with some type matter reversed out to appear white. Cover 2 prints type/line matter in black ink. Cover 3 is blank.

Text is folioed i thru vi and 1 thru 66 with folio 66 blank, prints 4-color process type, line and illustration matter plus 21 pages scattered throughout which print black only with type, line, and halftones.

**MATERIAL FURNISHED:** Contractor to pickup at GPO. .

One sample from a previous printing to be scanned as camera copy for output at same size (except where necessary in order to extend bleeds).

Vendor can remove cover from book. B&W pages in book will need to be scanned from book as 1200 dpi line scans (bitmap files) and dropped into page layout software equal to InDesign CS2 or Quark 6.1. 4/C photos will be scanned from book and descreened to create CMYK .tiff files. Color files will be placed into the page layout program with scanned line artwork to match sample book provided.

Vendor needs to be able to make minor type corrections to the bitmap files. Major corrections will need to be re-typeset and layered over the bitmap file, knocking out type when necessary. Additionally, vendor needs to be able to make color corrections to artwork if requested.

Digital Deliverables: Upon completion of each order, the contractor must furnish one set of final production native application files (digital deliverables) with the furnished material. The digital deliverables must be an exact representation of the final printed product. The Government will not accept, as digital deliverables, Postscript files, Adobe Acrobat, Portable Document Format (PDF) files, or any proprietary file formats other than those supplied, unless specified by the Government.
